SIEMENS

Presenting

Sinova Marq

Introducing the exquisite range of switches that breaks the line with a curve. A touch of elegance that effortlessly elevates the ambience of a home. These switches exude style and offer a delightful operational experience. Get the added convenience of effortless installation and seamless flush fitting. The ultimate embellishment for modern residences and workplaces. Sinova Marq is a comprehensive selection including communication sockets, regulators and dimmers. All of which are available in timeless classic grey and white shades.

Sinova Marq Features

Elegant looks with curved edges

Gives the right touch of class.

IP 20 protection

Putting safety and reliability first.

Snap-fit design

Helps robust and flexible mounting.

Ergonomic curved designs

A contemporary finish that makes it
stylish to see and a pleasure to use.

Siemens engraving

Assured authenticity and quality.

Ease in installation

Flush mounting that looks neat
and professional.

Sinova Marq

SIEMENS

Terms & Conditions

Maximum Retail Price (MRP) is subject to revision without prior notice.

The company reserves the right to supply goods at its works or godown at its discretion.

Export control regulation - retention clause: The fulfillment of the agreement on Siemens part is subject to the provision that this shall not be prevented by implements on the grounds of national and international legal requirements, in particular export control provision.

Note

- This supersedes all previous Price Lists
- Maximum Retail Prices (MRPs) mentioned in the publication are maximum recommended selling prices
- Invoice amount not to exceed MRP
- Invoice amount = MRP (less) applicable discount + applicable GST %
- For receiving material in factory sealed packing, we request you to order in multiples of the indicated standard packing quantity.

Always make your purchases only from our authorized dealers/stock point. Details available with our sales office/territory managers.

The smart solution.

Whether in an existing plant or a new installation – the 5SV6 AFDD and 5SM6 AFD unit can be deployed in any distribution board. It quickly identifies dangerous faults caused by parallel or serial arcing faults and switches off before a fire occurs. The AFDD detects operational arcing faults and only trips in the event of an actual fault.

For more details please contact sales office.
